SERVICES PRESENTATION · B2B

Interior design and operational delivery for opening-ready assets.

Hospitality · Serviced apartments · Coliving · Real
estate

BARCELONA & MADRID

Looking good is not enough: the space must be ready for opening without friction.

01

Identity

An interior proposal aligned with positioning, users and daily use.

02

Control

Purchasing decisions that balance cost, lead time, durability, replacement and availability.

03

Opening

Deliveries, installation, adjustments and setup coordinated for opening day.

The opportunity: coordinate creative and operational decisions through one consistent process.

One consistent thread from design intent to implementation reality.

INTERIOR DESIGN

Identity, furniture, decorative lighting, materials, textiles and FF&E.

OPERATIONAL EXECUTION

Suppliers, procurement, deliveries, implementation, installation, setup and opening support.

Scope of work

Transformation of existing interiors, respecting the asset's architectural configuration.

An end-to-end scope, from interior identity to operational launch.

An interior identity designed for use and operation.

- 01 Interior concept and language
- 02 Furniture, decorative lighting and FF&E
- 03 Materials, textiles and decorative finishes
- 04 Final styling and overall coherence

Within the existing architectural configuration.

Every design decision translates into supplier, cost, lead time and replacement.

PROCUREMENT

- | | | |
|----|----------------------|---|
| 01 | Specification | What is needed and the criteria for use. |
| 02 | Comparison | Price, lead time, durability, warranty and replacement. |
| 03 | Purchasing | Budget, orders and confirmation of terms. |
| 04 | Follow-up | Dates, issues, substitutions and deliveries. |

Smart purchasing protects design, budget and opening date.

MEASURE. REVIEW. ADJUST.

A few centimetres can
change everything.

06 / IMPLEMENTATION COORDINATION

Measure, review and resolve before an issue affects the opening.

- 01 **Delivery and installation schedule**
- 02 **Coordination of suppliers and installers**
- 03 **Review of measurements, finishes and installation**
- 04 **Outstanding items log and final adjustments**

Handover is complete when the space is ready to welcome its first user.

READY TO OPERATE

- 01 **Final staging**
Composition, signage and presentation of the space.
- 02 **Equipment**
Placement and verification of required elements.
- 03 **Quality control**
Visual and functional review, plus outstanding-items list.
- 04 **Opening support**
Last-mile adjustments for operational launch.

Five phases. One control logic.

Each phase reduces uncertainty before the next begins.

Each phase leaves traceable decisions and a clear next step.

EXAMPLE DELIVERABLES · SUBJECT TO AGREED SCOPE

01	Asset brief	Objectives, user, priorities, budget and usage criteria.
02	Interior proposal	Concept, visual selection and FF&E specifications.
03	Supplier matrix	Options, terms, lead times, warranties and replacement.
04	Procurement control	Budget, orders, status, deliveries and issues.
05	Implementation checklist	Installation, outstanding items, adjustments and opening readiness.

CONTROL

**What is decided.
Who supplies it.
When it arrives.
What remains
outstanding.**

Shared visibility for owner,
operator and implementation
team.

B2B specialisation for operational residential and hospitality assets.

- 01 **Hospitality and aparthotels**
- 02 **Serviced apartments**
- 03 **Coliving and flexible living**
- 04 **Residential rental assets**
- 05 **Real estate and interior repositioning**

Barcelona & Madrid • Direct point of contact throughout the process

Fuenlabrada: procurement & implementation.

PROCUREMENT & SITE DIRECTION

The portfolio presents this project as the clearest example of the positioning between procurement, implementation and operation.

01 **Procurement selection and control**

02 **Delivery and implementation coordination**

03 **Operational setup**

FUENLABRADA LIVING MADRID

Interior design perspective. Operational mindset. Direct communication.

01 **Coherence**

Design intent is maintained through purchasing, installation and setup.

02 **Operational judgement**

Every choice considers use, durability, maintenance, lead time and replacement.

03 **Continuity**

One point of contact connects owner, operator, suppliers and implementation.

Existing interiors; no architecture or structural redistribution.

Let's turn the next asset into a space ready to operate.

01

Share the asset and brief

Typology, location, condition, operator, schedule and objective.

02

Align the scope

What needs to be designed, purchased, coordinated and made ready.

03

Receive a proposal

Phases, deliverables, responsibilities and collaboration model.
